World Doctors

As an organization with deep roots in South Tyrol, we implement sustainable projects around the world that contribute to the long-term improvement of living conditions in the regions we support. Our goal is to create opportunities locally, enabling people to access medical care, education, and clean drinking water in their own communities.

With more than 25 years of experience and a strong network of trusted partners in the countries where we work, we continuously strengthen and expand the reach and impact of our projects.

Our main Activity

In close cooperation with our local partners, we support the following activities:

- Construction and renovation of hospitals
- Funding of medical equipment
- Training and continuing education for medical staff
- Organization of specialist medical camps
- Construction and renovation of schools
- Training and continuing education for teachers
- Funding of drinking water projects
- Support for income-generating activities
- Social projects for women
- Sports and English summer camps

Our projects are financed through private donations and foundations. Additional funding is provided by the Autonomous Province of Bolzano, the Autonomous Region of Trentino-South Tyrol, the Municipality of Bolzano, as well as through the 5 per mille scheme included in the Italian tax return.

Thank you very much for your support.
